The Ultimate Bubble Blower

The "Ultimate Bubble Toy" with secret soap bubble solution was invented by the master himself, Fan Yang. Now you can create bubbles that you never thought imaginable. Not only does Fan Yang hold multiple world records for the largest bubbles ever created, he also holds the record for the longest. Imagine walking into a bubble corridor that is a staggering 10 feet high and 156 feet long. That's the equivalent of stepping onto a football field and creating a giant bubble from the end zone to the 50 yard line. Fan Yang, the mad bubble scientist actually made it happen. Now you can experience the incredible bubble blowing magic previously only seen in shows at the world's leading science and art institutions. His work has been recognized for outstanding scientific and artistic achievements by the National Museum Of Science and Technology, Ottawa, Canada; Pacific Science Centre, Seattle Washington, USA; Singapore Science Centre; "The Corning Glass Museum" in New York; Ontario Science Centre, Toronto, Canada; Discovery Science Center in Santa Ana California USA; Gostiny Dvor (Red Square) Moscow and more. Yang's bubble creations are not just about having fun. Yang has been featured on primetime television shows around the world and was even voted "Artist of the Year" in Germany. So why has Fan spent his life perfecting the art and science of bubble blowing? Children of course! Yang has chosen a life that allows him to excite and inspire young minds across the world like never before. And with the amazing bubble blower and secret soap bubble formula you'll be able to experience the same wonder by creating bubbles inside a bubble, bouncing bubbles, floating bubbles, mega bubbles, millions of tiny bubbles and many other cool bubble tricks. This incredible 3 piece bubble set includes bubble ring with detachable handle, bubble solution dish and secret soap bubble solution.
